

RoofRite® Systems

Roofers Kit

The Advantage™ RoofRite® System is the ideal fall protection means for sloped roof construction applications. The RoofRite™ bracket attaches to sloped roofs at the peak of wood frame structures to provide a stable anchor point. The complete RoofRite system includes: 1 roof bracket, mounting nails, 25' or 50' rope lifeline with double locking carabiner, Ropelok® with shock-absorbing lanyard, and full body harness. When installed properly, the RoofRite system provides a 5,000 lb. single use anchorage.

- ITEM NO. 9300-RK3***
25' RoofRite System w/ Single Use Bracket
- ITEM NO. 9300-RK4***
50' RoofRite System w/ Single Use Bracket
- ITEM NO. 9300-RK5***
