NO FLAT
FOAM FILLED
TIRES

Hook Up and Go

The new SafeRack Maui MOVER is battery powered for silent running, controlled operation. Includes a variable speed twist grip that controls forwards and backwards for smooth acceleration and deceleration. The unit comes with 2 deep cycle 12v batteries for extended run times and longer periods between charges.

This state-of-the-art electric powered unit makes moving your Maui - Mobile Access Unit faster and easier than ever before.

FEATURES

- ▶ **QUICK HOOK UP** - Attaches fast with simple ball hitch connection
- ▶ **TWIST GRIP** - Easy to operate with twist grip forward and reverse
- ▶ **VARIABLE SPEED** - Comfortable variable operating speed from 0-3 mph
- ▶ **EASY RECHARGE** - Plugs into any 120v outlet (220 also available)
- ▶ **NEVER FLAT** - Increase up time with foam filled no flat tires
